PREFACE.

The Registers of Halesowen from 1559 to 1812 are contained in sixteen volumes, of which the first two are printed herein, Volume I covering the period 1559—1619, on pages 1-150, and Volume II 1620—1643, on pages 151-237.

In many places the writing is very faint and illegible, and much time and attention has been expended on the doubtful entries. It is hardly likely more will be recovered than is now printed.

The work of transcription was commenced when Rev. J. C. Hill was Rector, and he also kindly gave permission for it to be printed, but he left the parish before the work was completed, but the present Rector has consented to its publication.

The list of Incumbents has been made by the Rev. W. Davis-Winstone, who has devoted considerable time to its compilation.

The transcription of the Register, as well as making the Index, has been the work of Miss E. Hobday.

A Digest of the Parish Registers

WITHIN THE DIOCESE OF WORCESTER,

Issued by the Committee of Parish Registers,

By Authority of the WORCESTER DIOCESAN CONFERENCE.

This Digest has been prepared under the direction of a Committee appointed at the Diocesan Conference, held at Birmingham, in 1896, and has been completed from the original Returns supplied by the Incumbents of the Parishes within the Diocese. The dates when each Volume of Registers commence and end, the number of leaves, material on which they are written, and the size and general condition, are all clearly stated under each parish.

Added to all this useful information is a table showing for what years in every parish the Bishops' Transcripts, previous to 1700, are now in existence in Edgar Tower, Worcester.

As only a limited number of copies has been printed, early application is necessary to secure a copy.
